

PRE-MOISTENED WIPE WITH LOTION TO IMPROVE DISPENSING
ABSTRACT OF THE DISCLOSURE

5 A lotion suitable for use in a disposable wiping article is disclosed. The lotion can be used to wet pre-moistened wet wipes, and is particularly suited for use in pop-up dispensing systems of disposable wet wipes, such as baby wipes. The lotion provides for improved reliability of pop-up dispensing while maintaining adequate wet impression. The lotion is an aqueous solution comprising a surfactant selected from the group consisting of phosphate-quaternary amine compounds and non-ionic surfactants, and effective amounts of
10 a second ingredient selected from the group consisting of non-cellulosic organic water soluble polymers and alkoxylated alcohols. Other ingredients such as preservatives and fragrances can also be included in the lotion.
